

# Nigel Allcock

Independent Financial Adviser

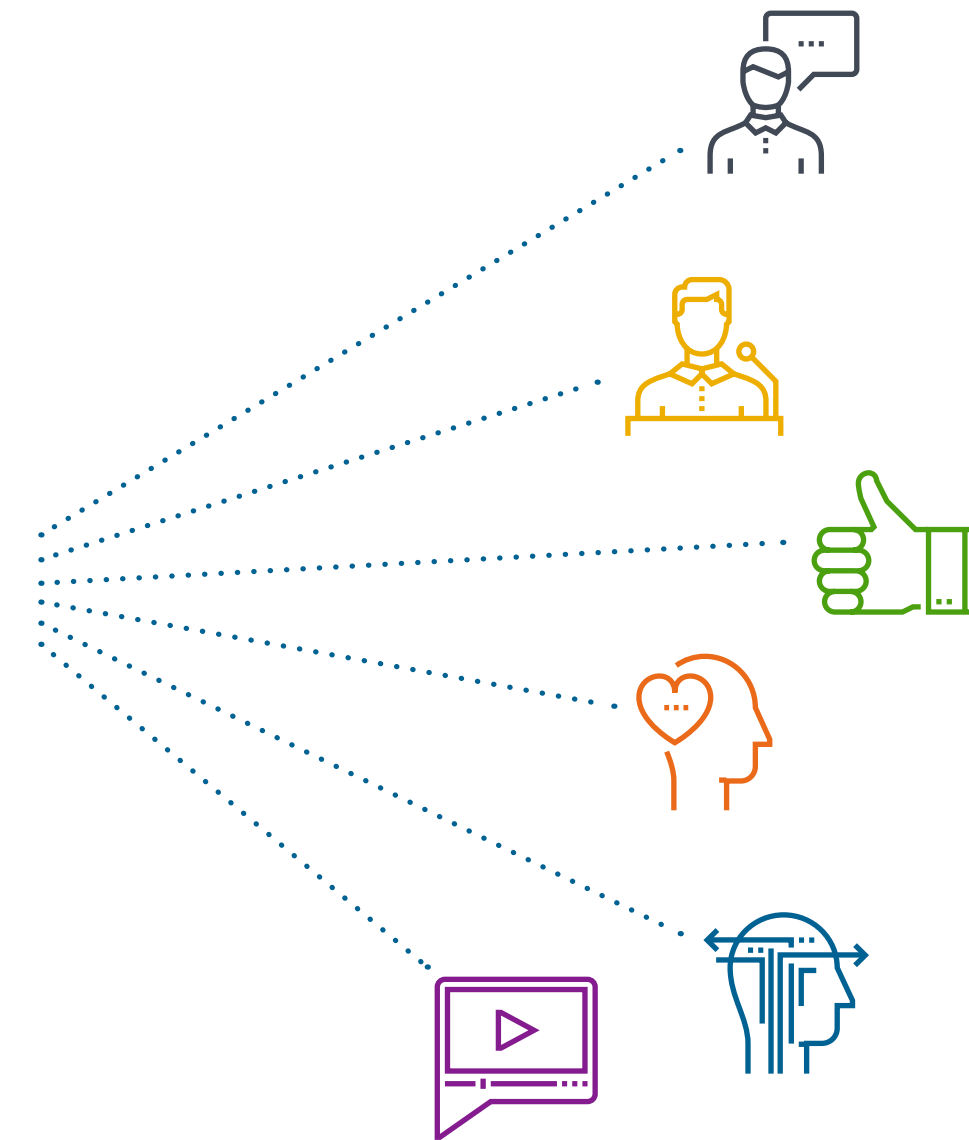

Ash Financial

FundsNetwork has evolved substantially over recent years and its systems now offer a **seamless and simple end-to-end process for all pension, ISA & investment business**. But the most important thing to us, is the support we get from our dedicated team. **Direct access to technical expertise is also second to none**, and the technology makes it very easy to do business with clients, without the need for reams of applications and endless form filling.

FundsNetwork's platform has helped us achieve positive client outcomes, by offering a simple process to implement model portfolios that allow us to manage and rebalance clients' investments. **The quality of client valuations is as good as I've seen anywhere**, providing clients with understandable information that's as detailed as they could possibly wish for. **The annual statement of costs and charges is also extremely comprehensive, well laid out and easy for clients to understand**.

Our business has grown substantially while working with FundsNetwork, and certainly clients like what they see. They appreciate the quality of the valuations, they actively log in to FundsNetwork to keep an eye on their investments, and these have proved to be **significant factors in receiving referrals, simply because of the levels of client satisfaction with FundsNetwork**.
